

Maryland University of Integrative Health Herbal Dispensary
CUSTOM POWDER POLICY

The Herbal Dispensary blends powders with any pre-powdered herbs from the list below (powdered herbs are also indicated with a P in the left hand column on the bulk herb list). These powders have a fine-grain texture.

For a \$10 handling fee, the Herbal Dispensary will powder any bulk formula that contains one or more c/s herbs (*please refer to the bulk herb list for a list of c/s herbs*). We cannot guarantee the texture of these blends and most likely they will **not** be a fine-grain powder. A 100g minimum order applies for all custom powder blends containing one or more c/s herbs. Although we try to accommodate all orders, maximum quantity is dependant upon our herb supply.

PRE-POWDERED HERBS:

<i>Althaea officinalis</i>	Marshmallow root
