Company Name: Silver Leaf Natural Medicine is for sale

Job Type: Full-time

City: Asheville

State: NC

Details: Silver Leaf Natural Medicine is for Sale! Asheville, North Carolina is one of the south's most visited and beloved cities. Boasting a celebrated arts, food, and drink scene, Asheville has been named by the New York Times, the Travel Channel, and National Geographic as one of the best small cities in America, for its beautiful and eclectic downtown area and gourmet restaurants, craft breweries, and art galleries. With a vibrant music scene and moderate Appalachian mountain climate, Asheville is one of the most sought destinations for visiting and moving in the country right now, and has seen an influx of retirees and professionals move here from areas like California and New York.

Evan Bussanich founded Silver Leaf Natural Medicine LLC in 2012 in the vibrant North Asheville neighborhood in a beautiful, restored art deco storefront space from the early 1920's. In the past six years, the Liberty Street block of North Asheville has exploded into one of the most walkable and attractive neighborhood areas of the city, boasting the largest and busiest yoga studio in town (Asheville Yoga Center), an organic juice and smoothie bar (Elements), a busy farm-to-table cafe (Liberty Street Cafe), and a very popular Spin and fitness studio (WellFit Asheville).

Silver Leaf Natural Medicine is ideally situated as one of the highest rated acupuncture and natural medicine clinics in Asheville, with 3 treatment rooms (with the possibility of a 4th with minimal construction), a fully stocked raw herb, granular, and pill herbal pharmacy area, a 300 square foot basement storage and staff area, and over 400 square feet of reception and retail space with a beautiful shopfront window and considerable foot traffic. This highly coveted space and location won't last long! Evan is transitioning to writing and teaching full time and some distance consulting, and a busy acupuncture practice does not fit into future plans. Silver Leaf Natural Medicine is an incredible opportunity for a motivated practitioner to step directly into busy practice: a very large client base, beautiful website complete with online booking (www.silverleafnatural.com) that links to our wonderful EMR system, a fully stocked herbal pharmacy, retail fixtures for walk-in sales of herbs and vitamins, and fully outfitted treatment rooms.

This brokered sale is 100% bank financed.
