

Type of Opportunity: Nutrition

Company Name: Corporate Health Solutions, Inc.

Job Type: Part-time

City: Remote job

State: Remote job (company is based in PA)

Details: Nutrition Coach Opportunity

Corporate Health Solutions, Inc. has an opening for a Nutrition Coach to oversee the nutritional well-being of our clients. The successful candidate will have a proven track record of conducting nutrition assessments, identifying patients at risk and providing education and guidance for dietary change. The candidate should be comfortable with evidence-informed practice and data-driven decision making. The candidate should also actively keep up with the latest nutritional research, integrating new findings into nutritional coaching and services. The ideal applicant has experience providing nutrition education to patients and mitigating risk factors.

Applicants must be ready to collaborate with other team members including physicians, health behaviorists and nurses in order to tailor dietary services and improve patient outcomes. The Nutrition Coach should be a great communicator, critical thinker and leader. The applicant must possess a high degree of emotional intelligence and be well versed on motivational interviewing concepts.

Examples of Dietitian responsibilities

Provide remote nutrition-related services in accordance with company guidelines, state and federal laws and regulations Co-develop nutrition goals with clients based on knowledge of patients' current health and their priorities and preferences Complete monthly, quarterly and yearly assessments of clients and adapt nutrition goals as needed Implement personalized, age-specific and culturally appropriate nutrition strategies Provide nutrition education and coaching for clients Keep consistent SOAP notes for all client outreach and interaction Document clinical and behavioral changes in real time

Examples of Dietitian skills

At least two years of related experience Master's Degree in Nutrition, Dietetics or related field Excellent interpersonal skills Experience with data entry and data analysis Strong problem solving, project management and organization skills Must be a Registered Dietitian, Certified Nutrition Specialist preferred
